

Raja Khan

Full Stack Developer + AI Integration

[Github](#) | [LinkedIn](#) | rajak82001@gmail.com | [+91 6260139459](tel:+916260139459)

SUMMARY

Full-stack developer with production experience building end-to-end MERN applications REST API design to **responsive** React frontends. Shipped Pixmart, a live digital marketplace with **payment integration**, **cloud storage** and **role-based auth**. Strong fundamentals in **DSA** and **OOP** (Java), quick learner, comfortable working closely with senior engineers to ship features end-to-end.

EDUCATION

Bhilai Institute of Technology

B. Tech - Computer Science & Engineering – 8.17 CPI

Durg, Chhattisgarh, India

Nov 2022 - July 2026

Central Board of Secondary Education

Senior Secondary School – 81.8%

April 2020 - March 2021

Secondary School – 84.8 %

April 2018 - March 2019

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Java - OOP, Data Structures & Algorithms

Frontend: Reactjs, Nextjs, Redux Toolkit, Zustand, Tailwind CSS, Axios, TypeScript

Backend: Node.js, Express.js, JWT Authentication, Role Based Access Control, MongoDB, MySQL

AI & APIs: LLM APIs, API Integration, Cloudinary, Razorpay, Postman

Build and Dev Tools: Vite, Git, GitHub, VS Code, npm, Vercel, Render

WORK EXPERIENCE

Software Developer Intern (Frontend focused)

Amdox Technologies Karnataka Bangalore

Aug 2023 – Oct 2023

- Built and shipped 6+ reusable React + Redux Toolkit components reducing UI development time across 3 dashboard modules.
- Integrated 4 REST APIs into React dashboards enabling real-time data filtering and role-based rendering.
- Collaborated in an Agile team of 5 engineers to deliver sprint features on a 2-week release cycle.

PROJECTS

Pixmart – Digital Asset Marketplace

React, Redux, Nodejs, Express.js, MongoDB, Tailwind CSS, Cloudinary, Razorpay

[GitHub](#) | [Live Demo](#)

- Engineered a **full-stack MERN marketplace** enabling 2 user roles (creator/buyer) with **JWT-based auth** and **role-based access control** for secure dashboard access.
- Reduced API response time by **~40%** through **MongoDB query optimization** and **Cloudinary CDN** integration for fast asset delivery.
- Integrated **Razorpay payment** gateway with webhook-based order confirmation, achieving **100% transaction accuracy** across test cases.
- Owned full product lifecycle from schema design and API architecture to frontend deployment, post-launch monitoring, and debugging.

Automated B2B Outreach Pipeline | Node.js

Node.js, JavaScript, REST APIs, Axios, Winston, p-limit, Ocean.io, Prospeo, EazyReach, Brevo

[GitHub](#)

- Built a multi-API automation pipeline for prospect discovery, lead enrichment and personalized email delivery integrating 4 external APIs with concurrency control, retry logic, and structured data output for analytics.
- Integrated Ocean.io, Prospeo, EazyReach and Brevo APIs to automate company discovery, decision maker identification and outreach workflows.
- Improved system reliability using retry mechanisms, concurrency control and centralized logging.
- Generated structured lead data and exported results for downstream CRM and analytics use cases.

Habit Tracker

React.js, TypeScript, Zustand, Material UI, Vite

[GitHub](#) | [Live Demo](#)

- Developed a responsive Habit Tracker application enabling users to create, manage, and track daily and weekly habits.
- Implemented centralized state management using Zustand for efficient habit creation, deletion, and completion tracking with seamless UI updates.
- Built reusable, type-safe UI components using Material UI and TypeScript, ensuring a scalable, maintainable, and responsive frontend architecture.
